

Project Management Office (PMO)

Organisations that are willing to enter and stay successful in the highly dynamic global e-commerce market will have to continuously evaluate and adapt their internal/external processes, sales processes, equipment, IT, organisation and culture.

SKS & Partners is supporting companies and authorities with a unique delivery oriented end-to-end methodology of which the definition of a solutions how to deploy a PMO structure into the current environment and develop a deployment roadmap incorporating your organization's culture and operating practices. We will work with you to identify, prioritize, and establish a set of fundamental PMO functions and services. The deployment includes establishing governance standards, developing the PMO Charter and communications plan, identifying resource needs and performance measures & KPI's. We work closely with your organization, incorporating delivery processes to fit your culture, and improving the competencies of your staff through training and mentoring.

Using established project management methods increases the success of projects in terms of delivering the agreed results. We ensure that projects are aligned with the strategy & objectives by offering both supportive, controlling & directive PMO management.

SKS & Partners has successfully performed such tasks with:

- Several postal operators.
- Carriers.
- Multi-carrier platforms.
- Cargo companies.
- Governmental authorities.

Project & Program Management (PPM)

Once the Strategy has been set SKS & Partners offers hands-on consulting and/or interim management services to align the PMO agenda to the strategy and to deliver tangible results through difference levels of engagement/management of the agenda.

Project & Program Management is part of our business model & our services.

Concept & Initiation	Definition & Planning	Launch & Execution	Performance & Control	Close & Evaluation
Proposal	Scope & Budget	Status & Tracking	Objectives	Handover
Charter	Work Breakdown	KPI's	Deliverables	Reporting
Initiation	Gantt Chart	Quality	Cost tracking	Post evaluation
Prioritization	Communication Plan	Forecast	Resources	Close out
	Risk Assessment		Progress	
			Issue resolution	

We have extensive experience in delivering the agreed Programs & Project methodology & tools.

Whether you require resources long term or short term, PPM Solutions has the flexibility and talent to accommodate your resource needs. We specialize in:

Managing strategic, mission-critical initiatives: You can utilize our consultants when you have business critical program or projects.

Recovering troubled projects: Our consultants are skilled at conducting rapid diagnosis of problems, instituting course corrections, and bringing projects back on track.

Interim leadership: We can take charge of PMOs and / or PPMs and run them for you for short- or long-term durations and migrate them back to you when you're ready.

Filling skill set gaps: If you have skill gaps in your organization to man special projects, we can provide the expertise you need. We can also help better manage key resource dependency issues.

Supplementing resources when demand exceeds capacity: From Business Analysts to Project Controllers to Program Managers, we can help fill your staffing shortages.
